

Sushant Kumar

Rhinstraße 79, Berlin, Germany | s_kumars25@stud.hwr-berlin.de | +491727330795

Profile Summary

MBA candidate at HWR Berlin with more than six years of experience in the energy industry, spanning operations, safety, and sustainability. Recent experience includes a consulting engagement on asset strategy with an offshore wind developer in Germany and an entrepreneurial project focused on Agri-PV in the German cleantech market. I bring strong capabilities in strategic planning, stakeholder management, sustainability initiatives, market sizing, and scenario analysis, with a practical and commercially focused approach to solving complex business challenges. I am motivated to contribute to organizations that value innovation, responsible growth, and long-term impact.

Projects

Offshore wind Asset Strategy – Iberdrola Deutschland

2026

- Built a strategic decision framework for Jack-Up Vessel (JUV) contracting to support post-warranty offshore wind operations.
- Modelled cost, risk, and operational-efficiency scenarios to inform long-term asset management decisions.
- Delivered recommendations to Iberdrola stakeholders as part of an international MBA consulting team.

Entrepreneurship Project – Agri PV Digital Platform

2026

- Built a digital platform concept for agrivoltaics (Agri-PV) adoption among farmers in Germany, including MVP scope, customer value proposition, and a land-potential assessment framework.
- Sized the German Agri-PV market (TAM/SAM/SOM) using Fraunhofer ISE data and benchmarked competitive positioning against various competitors.
- Produced an investor-ready pitch deck and commercialization strategy for a scalable cleantech venture.

TESLA Gigathon Challenge

2026

- Secured 3rd place in the Tesla Giga Berlin supply-chain challenge.
- Developed a strategy to support a 44% production ramp by addressing supplier, inventory and warehouse risks.
- Adapted the solution to a simulated logistics disruption through prioritisation, alternative sourcing and emergency transport measures.

Work Experience

Coal India Limited

2018 - 2025

India's Largest Energy (Coal Mining) Company.

Deputy Manager, Operations and Strategy

2023 - 2025

- Redesigned exploration planning processes, improving resource allocation efficiency by 20% and cutting project lead times by 3 weeks.
- Led cross-functional initiatives across operations, engineering, and planning to improve asset utilization and extend asset lifecycle by 3 years.
- Ran data-driven operational analyses to improve planning accuracy, and coordinated with senior leadership on efficiency, safety, and performance-optimization initiatives.

Assistant Manager, Risk, Safety & Sustainability

2018 - 2022

- Designed and implemented a centralized safety management system with KPI tracking, cutting heavy-vehicle incidents by 15% and downtime by 7%.
- Led sustainability initiatives that reduced air pollution impact by 26% while generating approximately \$115K in operational savings.
- Managed ~\$100K in annual procurement and vendor operations and coordinated 24 multi-agency emergency response drills, improving response time by 20%.

Education

Master in Business Administration

2025 - Ongoing

HWR Berlin, Berlin, Germany

Master in Science (M.Sc.) in Geology

2016 - 2018

IIT Kharagpur, Kharagpur India

CGPA: 8.2

Bachelors in Science (B.Sc.) in Geology

2013 - 2016

University of Delhi, Delhi, India

Score: 77.2/100

Skills

Strategy & Consulting: Strategic Planning, Operational Excellence, ESG & Sustainability Strategy, Risk Management, Stakeholder Management, KPI Management

Operations & Projects: Cross-Functional Coordination, Vendor & Procurement Management, Safety Management Systems, Continuous Improvement

Technical & Analytical: MS Excel (Advanced), Power BI (Basic), MS PowerPoint, GIS/QGIS, Data Analysis

Language

English: C1 (IELTS Certified)

German: B1 (Intermediate)

Hindi: Native
